Morningstar Style Box™

The Morningstar Style Box™ reveals a fund's investment style based on portfolio holdings.

Hypothetical growth of \$10,000 investment since inception

Class R4 without sales charge 09/11/2000 to 12/31/2025

The chart illustrates the performance of a hypothetical \$10,000 investment made in the fund on commencement of operations. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any applicable sales charges or redemption fees, which would lower these figures. This chart is not intended to imply any future performance of the fund.

Average annual total returns and expense ratios (%)

	3M	YTD	1 Yr	3 Yr	5 Yr	10 Yr	Inception	Gross	Net
Class R4 (at NAV)	2.53	17.48	17.48	22.62	14.06	14.48	7.90	0.38	0.30
Class R (at NAV)	2.49	17.12	17.12	22.21	13.70	-	14.28	0.63	0.63
S&P 500® Index	2.66	17.88	17.88	23.01	14.42	14.82	-	-	-

The data shown represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Please see transamerica.com for performance data current to the most recent month-end. The investment return and principal value of mutual funds will fluctuate over time so that shares, when redeemed, may be worth more or less than their original cost. Net asset value (NAV) returns include reinvestment of dividends and capital gains but do not reflect the deduction of any sales charges. If a sales charge had been deducted, the results would have been lower. Performance for other share classes will vary.

There are no sales charges for Class R4 or Class R. Class R shares are only available through eligible retirement accounts.

Performance figures reflect any fee waivers and/or expense reimbursements by the Investment Manager. Without such waivers and/or reimbursements, the performance would be lower. Future waivers and/or reimbursements are at the discretion of the Investment Manager. Contractual arrangements, if any, have been made with Transamerica Asset Management, Inc. through 5/1/2026.

Morningstar Rating™

Portfolio Characteristics

Net Assets (All Share Classes)	\$190.49 Million	Beta	1.00	Information Ratio	-4.08
Portfolio Turnover % (as of 12/31/2024)	9	R Squared	100.00	Sharpe Ratio	1.49
Alpha	-0.39	Standard Deviation	11.96	Tracking Error	0.09

Risk measures are in comparison to the fund's primary benchmark unless otherwise indicated. Based on Class R4 for the 3-year period.

Alpha is a coefficient measuring the portion of a fund's return arising from specific (non-market) risk. Historical **Beta** illustrates a fund's sensitivity to price movements in relation to a benchmark index. **R-Squared** is a statistical measure that represents the percentage of a fund's movements that can be explained by movements in a benchmark index. **Standard Deviation** is a statistical measurement that helps to gauge the fund's historical volatility. **Information Ratio** is a ratio of portfolio returns above those of a benchmark compared to the volatility of those returns. **Sharpe Ratio** is a risk-adjusted measure calculated by using standard deviation and excess return to determine reward per unit of risk. **Tracking Error** is the difference between the price behavior of a fund and the price behavior of a benchmark.

The information contained herein is proprietary to Morningstar and/or its content providers; may not be copied or distributed; and is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For each fund with at least a 3-year history, Morningstar calculates a risk-adjusted return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receives a Morningstar Rating™ of 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund and rated separately.) A fund's overall rating is derived from a weighted average of the 3-, 5-, and 10- year (if applicable) rating metrics. Morningstar Rating™ is for the indicated share class only; other classes may have different performance characteristics. Morningstar Rating™ does not include any adjustment for sales load, which would lower performance. Past performance does not guarantee future results.

The S&P 500® is an unmanaged index used as a general measure of market performance. It is not possible to invest directly into an index. Calculations assume dividends and capital gains are reinvested and do not include any managerial expenses.

An index fund has operating and other expenses while an index does not. As a result, while the fund will attempt to track the S&P 500® as closely as possible, it will tend to underperform the index to some degree over time. If an index fund is properly correlated to its stated index, the fund will perform poorly when the index performs poorly. Equity funds invest in equity securities, which include common stock, preferred stock, and convertible securities. Because such securities represent ownership in a corporation, they tend to be more volatile than fixed income or debt securities, which do not represent ownership.

Shares may be sold (or "redeemed") on any day the New York Stock Exchange is open for business. Proceeds from the redemption of shares will usually be sent to the redeeming shareholder within two business days after receipt in good order of a request for redemption. However, Transamerica Funds has the right to take up to seven days to pay redemption proceeds, and may postpone payment under certain circumstances, as authorized by law.

Mutual funds are subject to market risk, including loss of principal. Past performance is not indicative of future results.

Mutual Funds are sold by prospectus. Before investing, consider the funds' investment objectives, risks, charges, and expenses. This and other important information is contained in the prospectus.
