Why the fund?

An actively managed strategy that seeks to identify inefficiencies in the municipal bond market with the goal of maximizing total return by investing primarily in medium-to-lower-grade fixed income securities.

- Opportunistic and tactical management within municipal bond market
- Focus on achieving total return
- Tax-advantaged income

Hypothetical growth of \$10,000 investment since inception

Class A without sales charge 07/31/2013 to 12/31/2025

The chart illustrates the performance of a hypothetical \$10,000 investment made in the fund on commencement of operations. Figures include reinvestment of capital gains and dividends, but do not reflect the effect of any applicable sales charges or redemption fees, which would lower these figures. This chart is not intended to imply any future performance of the fund.

Average annual total returns and expense ratios (%)

	3M	YTD	1 Yr	3 Yr	5 Yr	10 Yr	Inception	Gross	Net
Class I (at NAV)	1.69	3.15	3.15	6.28	1.23	2.85	4.50	0.79	0.76
Class A (at NAV)	1.65	3.00	3.00	6.12	1.11	2.73	4.36	1.01	0.91
Class A (at POP)	-1.66	-0.39	-0.39	4.96	0.45	2.39	4.08	1.01	0.91
Bloomberg High Yield Municipal Bond Index	1.15	2.46	2.46	5.96	2.18	4.35	-	-	-

The data shown represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Please see transamerica.com for performance data current to the most recent month-end. The investment return and principal value of mutual funds will fluctuate over time so that shares, when redeemed, may be worth more or less than their original cost. Net asset value (NAV) returns include reinvestment of dividends and capital gains but do not reflect the deduction of any sales charges. If a sales charge had been deducted, the results would have been lower. Public offering price (POP) returns include reinvestment of dividends and capital gains and reflect the maximum sales charge. Performance for other share classes will vary.

The Max Sales Charge for Class A shares is 3.25%. There are no sales charges for Class I shares. Class I shares are primarily offered for investment to institutional investors including, but not limited to, fee-based programs, pension plans, and certain endowment plans and foundations. The minimum investment for Class I shares is \$1,000,000 per fund account, but will be waived for certain investors. Performance figures reflect any fee waivers and/or expense reimbursements by the Investment Manager. Without such waivers and/or reimbursements, the performance would be lower. Future waivers and/or reimbursements are at the discretion of the Investment Manager. Contractual arrangements, if any, have been made with Transamerica Asset Management, Inc. through 3/1/2026.

Portfolio Characteristics

Net Assets (All Share Classes)	\$183.02 Million	Average Price (\$)	96.90	R Squared	96.20
Number of Holdings	331	30 Day SEC Yield Subsidized%	3.96	Standard Deviation	6.94
Portfolio Turnover % (as of 10/31/2025)	61	30 Day SEC Yield Unsubsidized %	3.91	Information Ratio	0.11
Average Duration* (Years)	6.73	Alpha	0.23	Sharpe Ratio	0.19
Average Maturity* (Years)	11.17	Beta	0.94	Tracking Error	1.41

*Average Duration and Average Maturity are sourced from Belle Haven and is based on all share classes of the fund.

Risk measures are in comparison to the fund's primary benchmark unless otherwise indicated. Based on Class A for the 3-year period.

Average Duration is a time measure of a bond's interest-rate sensitivity, based on the weighted average of the time periods over which a bond's cash flows accrue to the bondholder. **Average Maturity** is computed by weighting the maturity of each security in the portfolio by the market value of the security, then averaging these weighted figures. **Average Price** is the average market price of fixed income positions held in the fund. The **30-Day SEC Yield** is computed in accordance with a standardized method prescribed by rules of the SEC. The 30-Day SEC Yield is computed by dividing the fund's investment income per share earned during a particular 30-day base period by the maximum offering price per share on the last day of the base period, and then annualizing the result. The 30-Day SEC Yield is calculated at each month end and updated within the first ten business days of the following month. Be advised that the 30-Day SEC Yield calculation does not account for return of capital. Please refer to the most recent Annual Report for additional information regarding the composition of distributions. The subsidized 30-Day SEC Yield reflects the reimbursements or waivers of certain expenses. Had fees not been waived and/or expenses reimbursed, the yield would be lower. The unsubsidized 30-Day SEC Yield does not reflect reimbursements or waivers of expense fees. **Alpha** is a coefficient measuring the portion of a fund's return arising from specific (non-market) risk. Historical **Beta** illustrates a fund's sensitivity to price movements in relation to a benchmark index. **R-Squared** is a statistical measure that represents the percentage of a fund's movements that can be explained by movements in a benchmark index. **Standard Deviation** is a statistical measurement that helps to gauge the fund's historical volatility. **Information Ratio** is a ratio of portfolio returns above those of a benchmark compared to the volatility of those returns. **Sharpe Ratio** is a risk-adjusted measure calculated by using standard deviation and excess return to determine reward per unit of risk. **Tracking Error** is the difference between the price behavior of a fund and the price behavior of a benchmark.

Maturity (%)

0-1 Years	8.04
1-3 Years	1.31
3-5 Years	2.19
5-10 Years	8.02

The Bloomberg High Yield Municipal Bond Index is an unmanaged index used as a general measure of market performance. It is not possible to invest directly into an index. Calculations assume dividends and capital gains are reinvested and do not include any managerial expenses.

The interest from municipal bonds is expected to be exempt from federal income tax. If a fund investor is a resident in the state of issuance of the bonds held by the fund, interest dividends may also be free of state and local income taxes. Such interest dividends may be subject to federal and/or state alternative minimum taxes. Municipal bond prices can rise or fall depending on interest rates. Interest rates may go up, causing the value of the Fund's investments to decline. The municipal bond market can be susceptible to unusual volatility, particularly for lower-rated and unrated securities. All municipal bonds carry credit risk that the issuer will default or be unable to make timely payments of interest and principal. Generally, lower rated bonds carry more credit risk. High-yield bond (junk bonds) funds may be subject to greater volatility and risks as the income derived from these securities is not guaranteed and may be unpredictable and the value of these securities tends to decline when interest rates increases. The Fund is classified as 'non-diversified,' which means it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund. To the extent the Fund invests its assets in fewer issuers, the fund will be more susceptible to negative events.

Shares may be sold (or "redeemed") on any day the New York Stock Exchange is open for business. Proceeds from the redemption of shares will usually be sent to the redeeming shareholder within two business days after receipt in good order of a request for redemption. However, Transamerica Funds has the right to take up to seven days to pay redemption proceeds, and may postpone payment under certain circumstances, as authorized by law.

Mutual funds are subject to market risk, including loss of principal. Past performance is not indicative of future results.

Mutual Funds are sold by prospectus. Before investing, consider the funds' investment objectives, risks, charges, and expenses. This and other important information is contained in the prospectus. Please visit transamerica.com or contact your financial professional to obtain a prospectus or, if available, a summary prospectus containing this information. Please read it carefully before investing.
